Relationships and Services.

What Investment Services and Advice Can You Provide Me?

We offer investment advisory services to retail investors including Investment management services, financial planning, and consulting services.

If you retain our firm for investment management services, we will meet with you in person, if possible, otherwise by phone and/or computer to determine your investment objectives, risk tolerance, and other relevant information at the beginning of our advisory relationship. We will use this information to develop a strategy that enables our firm to give you continuous and focused investment advice and/or to make investments on your behalf. Once we construct an investment portfolio for you, we will monitor and rebalance your portfolio’s performance on an ongoing basis. We offer discretionary investment management services which allow us to manage your account regarding the purchase and/or sale of investments without your approval prior to each transaction until the termination of our agreement. You may limit our discretion by providing our firm with your restrictions and guidelines in writing. We also offer non-discretionary arrangements with our firm whereby you would be required to make the ultimate decision regarding the purchase and/or sale of investments and we would be required to obtain your approval prior to executing any transactions on behalf of your account. While we do not offer traditional custody as a service, we do have limited custody of client assets in instances where such clients allow us to automatically deduct fees from their investment advisory account(s).

Hampshire Family Office offers financial planning and consulting services which typically involves providing a variety of advisory services to clients regarding the management of their financial resources based upon an analysis of their individual needs. If you retain our firm for financial planning or consulting services, we will meet with you to gather information about your financial circumstances and objectives and make investment allocation recommendations based on your investment profile. You will be responsible for implementing our investment advice.

We offer investment advisory services with a large selection of investments to individuals, trusts, estates, charitable organizations, corporations, and other business entities.

In general, we do not require a minimum asset value to open and maintain an advisory account. **For additional information, please see Hampshire Family Office’s ADV at www.adviserinfo.sec.gov (Part 2A brochure, Items 4 & 7 or Part 2A Appendix (Wrap Supplement) Items 4.A & 5.)**

Conversation Starters. Ask your financial professional –

- *Given my financial situation, should I choose an investment advisory service? Why or why not?*
- *How will you choose investments to recommend to me?*
- *What is your relevant experience, including your licenses, education, and other qualifications? What do these qualifications mean?*

Fees, Costs, Conflicts, and Standard of Conduct.

What Fees Will I Pay?

For investment management services you will be charged an ongoing management fee based on the assets under management in accordance with the fee schedule presented in your agreement. Fees are typically charged quarterly in arrears based on the value of your account on the last day of the previous quarter. The asset-based fee reduces the value of your account and will be deducted from your account. Our current fee schedules are described in Item 5 of the Form ADV Part 2. **For additional information, please see Hampshire Family Office’s ADV at www.adviserinfo.sec.gov (Part 2A brochure, item 5).**

Investment management clients generally pay a management fee of up to 1.0% on assets under management or a flat fixed fee. Fixed fee structures can be increased or decreased based on the level of services provided. At our discretion, we may combine the account values of family members living in the same household to determine the applicable advisory fee. This may result in your paying a reduced advisory fee percentage. Although the effective fee rate will decrease the larger your account, the total management fees you will pay will likely increase as you increase the total amount of assets under our management, and therefore we generally have an incentive to encourage transferring or depositing additional assets into your account.

Other fees and costs may include custodian fees and account maintenance fees. Some investments (such as mutual funds) impose additional fees that will reduce the value of your investment over time. Also, with certain investments such as variable annuities, you may have to pay fees such as “surrender charges” to sell the investment.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

Conversation Starters. Ask your financial professional –

- *Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?*

What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here is an example to help you understand what this means.

Certain of the Firm’s Supervised Persons are registered representatives of Vigilant Distributors, LLC, a Broker-Dealer registered with the SEC and a member in good standing of FINRA, and may provide clients with securities brokerage services under a separate commission-based arrangement. A conflict of interest exists to the extent that the Firm recommends the purchase or sale of securities where its Supervised Persons receive commissions or other additional compensation as a result of the Firm’s recommendations.

Conversation Starters. Ask your financial professional –

- *How might your conflicts of interest affect me, and how will you address them?*

For additional information, please see Hampshire Family Office’s ADV at www.adviserinfo.sec.gov (Part 2A brochure, item 10).

How do your financial professionals make money?

Our financial professionals are paid a salary plus discretionary bonuses based on company, team, and individual performance, which includes metrics like client retention, referrals, and revenue the firm earns from the financial professional’s advisory services or recommendations, because the firm’s salaries are ultimately derived from such metrics.

Disciplinary History

Do you or your financial professionals have a legal or disciplinary history?

No. Visit Investor.gov/CRS for a free and simple search tool to research us and our financial professionals.

Conversation Starters. Ask your financial professional –

- *As a financial professional, do you have any disciplinary history? For what type of conduct?*
